The Perfect Fit

MADE IN ITALY

Founded in Italy in 1948, Cinetto has grown from a small hardware shop to become one of the world's leaders in the production of sliding systems and designer aluminium profiles.

Using the most advanced production techniques, their history of manufacturing quality products allows them to develop products that not only look great but function effortlessly too.

The Cinetto range also includes industry leading technology in B-moved for electrical opening and closing of doors. Ensuring silent and safe movement of doors, B-moved is equipped with wave sensor and remote control capabilities.

EXCLUSIVE

B-moved[®]

Introducing B-moved, market leading technology that transforms the way you experience spaces.

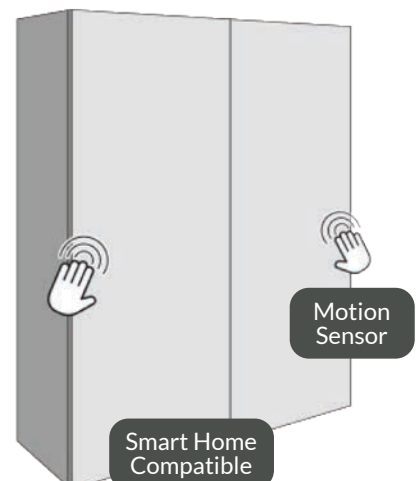

B-moved® Smart Technology

Exclusive to Wilson & Bradley, B-moved® is industry leading technology, that allows for the electronic opening and closing of doors on many different systems.

B-moved® ensures silent and safe movement of doors, and is equipped with wave sensor and remote control capabilities.

It is also smart home compatible, allowing you to control your doors at the click of a button. It brings forth a new experience of sliding, and adds a creative edge to new projects or renovations.

Commercial

Wardrobe

Applications

- Wardrobes
- Commercial applications
- Living room/TV cabinets
- Storage cabinets and more!

Kitchen

Living room/TV cabinet

- Compatible with Cinetto PIANO (PS40) Coplanar System and Cinetto VOLO (PS48) Sliding System for Overlapping Doors
- Exclusive to Wilson & Bradley
- Electronic System for the smooth opening and closing of doors
- Activates with remote control or wave sensor
- Can connect to smart lights or other electronic devices
- Can connect with a proximity sensor and with "Home Assistant" systems

Base (PS03)

Sliding Systems for Internal Doors

The Cinetto BASE is a cost effective, simple to assemble, practical sliding system that can be used on a variety of applications such as a wardrobe, storage cabinets or overhead cabinets.

The BASE uses a universal rebated top and bottom track. This system is used for applications where the door sits inside the carcass.

Overview

- Cost effective system
- Easy to install
- Up to 20kg wooden and glass doors
- Universal top and bottom track
- $\pm 1.5\text{mm}$ height adjustment

Veloce (PS06)

Sliding Systems for Hanging Doors

The Cinetto VELOCE is the perfect system for your wardrobe.

Sitting concealed behind the pelmet, the doors hang on the top track and can be installed with optional soft close features.

Overview

- Easy to install
- To suit 18-50mm doors
- Up to 50kg wooden doors
- Available with soft close
- $\pm 5\text{mm}$ height adjustment

Invisible (PS08)

Sliding Systems with Invisible Rails

The Cinetto INVISIBLE is exactly that, Invisible!

With a rebated top and bottom track, this system allows you to create a clean-cut look where the track is not exposed, allowing your door fronts and application to be the centre of attention.

Overview

- Easy to install
- Rebated top and bottom track
- Able to suit any doors thicknesses.
The only limitation is the weight of the door
- Up to 60kg wooden doors
- Available with soft-close
- +3 -2mm height adjustment

Libro Maxi (PS11)

Sliding Bi-Fold System

The Cinetto LIBRO MAXI sliding bi-fold system is a quality, Italian system, with performance that exceeds other systems in the market.

A sliding bi-fold system ideal for architects and designers who are constantly searching for the latest technology and innovative features for home design and functionality..

Overview

- Allows for creation of sliding systems with a completely flat facade
- Flexibility to choose number of doors and configurations
- Doors can easily slide to either side
- Capacity up to 40kg per leaf
- Minimum door thickness: 16mm

Libro (PS23)

Bi-Fold Door System

The Cinetto LIBRO bi-fold door system creates a statement when added to any setting. Whether used in wardrobes, European laundries or even pantries, the Cinetto LIBRO system operates as smooth as any other. Made from aluminium and operating on roller bearing slides, its sturdy aluminium design ensures it's fit for any project.

Overview

- Suits timber or aluminium framed glass doors
- Can be used with no bottom guide rail
- Version to suit 25kg and 50kg doors
- Available in anodised or black componentry
- Can be paired with optional Push to Open Mechanism in left and right door applications
- Min Door Width: 400mm± 1.5mm

Piano (PS40)

Sliding System for Retractable Doors

The Cinetto PIANO coplanar system creates unique design possibilities with its aligned door panels which provide a completely flush look when closed. Cinetto's PIANO system allows you to create any type of combinations with 1,2 or 3 doors and is customisable and compatible with B-moved technology.

Overview

- Aligned door panels provide a flush look when in closed position
- Soft-opening and closing
- Can be used with up to 3 doors
- Compatible with B-moved technology
- Handle profiles available
- Door thickness: Min 16mm

Compatible with
B-moved[®]

Volo (PS48)

Sliding System for Overlapping Doors

Exclusive to Wilson and Bradley, the Cinetto VOLO sliding system provides an industry standard in terms of quality Italian design.

The incredibly silent and smooth functionality, alongside the ability to be equipped with B-moved technology, presents an industry first innovation.

Overview

- Sliding system for overlapping doors
- Frontal adjustment
- Smooth and silent functionality
- Compatible with B-moved technology
- Handle profiles available
- Door weights up to 80kg
- Door thickness: 18mm-32mm doors

Compatible with
B-moved®

ACCESSORIES

Door Straightener

Wilson & Bradley are excited to introduce the new Cinetto BR05 Door Straightener, a premium addition to our Cinetto range.

Crafted from high-quality aluminium and designed to keep cabinet doors perfectly aligned, this easy-to-install system is suitable for a range of spaces, enhancing both durability and style.

Overview

- Can be rebated flush or mounted externally
- Crafted from high-quality aluminium
- Finish: White or Black
- Offered in various heights and can be cut to fit
- To suit doors from 2000 - 2800mm
